## Be ALERT: Make sure the kids in your school are protected.

### Universities, Private Schools and Colleges:

It's natural for children to engage in play and all sorts of physical activity. School administrators and teachers work hard to keep students safe from harm and yet, bumps and bruises are not uncommon and accidents still happen. So when the unexpected strikes, the last thing you should worry about is money.

While you can't prevent accidents from happening, you can be prepared for them.
